EXECUTIVE SUMMARY

I am undergraduate Computer Science student at Bina Nusantara University who is highly interested in Web Development. I'm skilled at converting design mockups into responsive websites using HTML, CSS, JavaScript and many more tools. I have a solid foundation in C programming, particularly in Data Structures and Algorithms, and I am committed to leveraging my skills to create engaging and user-friendly web experiences. As I progress in my academic and professional journey, my goal is to contribute to innovative web development projects and collaborate with like-minded individuals in the industry.
